# León Domingo

`Developer`

Curious developer and enthusiast of the WWW universe, looking for a company's "mission/vision" (what they're trying to achieve and for whom) and culture (what they think about their people) I can feel aligned with.

I'm in love with open-source projects which give us a great platform to create useful things with a low cost and full transparency. (Almost) every tool I use is open source (Linux, Python, VSCode, PostgreSQL, and so on) and I (usually) do not like propietary solutions (Oracle, SQL Server, Windows, etc) because of the obligation to adopt another set of private related technologies from the same company (most of the time).

I'm pretty focused on JavaScript-related technologies (including Typescript): React or Vue for the front, and Node/Express for the backend.

I love Python and the whole living ecosystem around it. Great work of a lot of people. Great on-line resources and awesome productivity.

Testing (and playing with) new technologies, as they come up, is something I like a lot.

Professional experience

Fullstack React/Node Developer [contractor]
from Jan/2022
Infoser Technological Soloutions (Spain)

- Frontend (React, Javascript/Typescript, HTML, JSS/SCSS, Redux/Saga, MaterialUI) and Backend/Middleware (Node, Express, Javascript/Typescript, PostgreSQL and/or 3rd party APIs) development for a german multinational motor-industry company on an app for sharing BigData sources between providers and consumers (data scientists)

Lead Developer [full-time]
from Jun/2005 to Oct/2013
Ender Aplicaciones (Spain)

- Analysis and development of web projects using Turbogears2 (Python + PostgreSQL + jQuery + HTML + CSS)
- Services and application deployment on different cloud providers using Ubuntu
- Pair programming

Education

Computer Science degree
from 1996 to 2001
Universidad Politécnica de Madrid

Just the period during which I acquired the theoretical foundations that would help me achieve the professional skills of "real life". I came out with no specific knowledge but I was ready to receive what it was coming.
